

POSTPARTUM

There is a theory which states that if ever anyone discovers exactly what the Universe is for and why it is here, it will instantly disappear and be replaced by something even more bizarre and inexplicable. There is another theory which states that this has already happened.

Douglas Adams (1978)

Many readers seek more information. The Time One website has links to many pages about the problems of physics and philosophy that provide the clues.

It also has information about the Cast of Characters—the sources of the many quotes that are integral to the story.

As well, there are videos—some about the story, and more about the scientific revolution.

There is also a Glossary of Terms used in the book. There are diagrams for aspects readers wanted diagrams about. There are acknowledgments of sources. There are many links.

And there are blogs. And maybe more.

Who knows where it will go? It's all a contribution to the great human conversation about who we are and why we're here.
